

SHEET METAL INDUSTRIES 1988 INDEX

JANUARY TO DECEMBER VOLUME 65

A					
Abrasive Product Guide	262	Crosslee Consolidates Facilities for Tumble Dryer Manufacture	194	High Pressure Flexible Die Forming of Sheet Metal for the Aircraft Industry	120
A Comparison of Electrical versus Mechanical Feeds for Transfer Presses	452	Current Trends in Cad and Integrated Cad/Cam for Sheet Metal Punching & Profiling	85	Hoover Gives a New Meaning to Flexibility	55
Advanced Production Systems for Sheet Metal Work	64	Cutting Centre with Angle Shear	20	Hydraulic Presses for Sheet and Plate Forming	504
Aerospace Applications for Titanium	406	Cut-to-Length Equipment	12	I	
Air Float Drying of Coated Strip	152	CVC Mill Produces Flat Strip for Progression Presswork	174	Impact Extrusion—An Alternative	360
An easy approach for Calculating the Strain-Hardening Exponent	546	D		Injection Moulding at the Expense of Presses Parts	362
75th Anniversary of Stainless Steel	388	Daf installs Truck Fuel Tank Production Line	512	Investment and Consolidation Marks International Pressworking	382
Application of High Energy Rate Forming to Heat Exchangers	191	Deburring with 3-Dimensional Abrasives	402	J	
Automatic Bending of Aerospace Components	128	Deep Drawing and Ironing of Non-Ferrous Material	284	JIT: Japanese Inspired Terror, or Just Inspired Thinking?	392
Automating Production Pays for NCR	208	Development of Tinplate and Tinplate Substitutes for Beverage and Food Can Application	242	L	
Automation of Bending	572	Die Changing System for Progressive Fine Blanking	238	Laser Robot Cuts & Welds	549
Automation Systems Supplier Diversifies	21	Die Sinkers and Wire Cut Machines	232	Lock Seaming Silencers	605
B		DNC Link in Tube Manipulation	202	M	
Back to Basics with Shearing	8	Dry Phosphating - A Realistic Alternative	656	Manufacture of Laminations for Rotors and Stators	414
Battery Can Manufacture	288	E		Materials for use in Future Automotive Bodies	377
Battle Against Corrosion	304	ECCA Plans for Single European Market	140	Metal Formers take a Spin	25
Bending Tool Assures Safe Edges	574	EDM in Press Tool Production	334	Micro-Computer Based Flat Pattern Development	92
Benefits of Finishing First, The Beverage Can-Making Industry in the UK	240	Edwards-Pearson's Re-Structuring Concentrates on High Technology	413	Middle Aged but Far To Go	329
Blech '88	516	Eighteen-Press Operations Carried out by Robots	366	Modern Machinery not Machismo at Mach	108
Body Former for High Output	290	Electrical Control Systems for Hydraulic Presses	409	Modified Toggle Press Provides Cold Forging Economies	184
Bright Prospects for Brazing in Sheet Metal Fabrication	210	Electroforming—A Process of Precision Metal Forming by Electrodeposition	359	N	
BSC Tinplate Invests £4.3M in Can Making Research Facilities	250	Electrolytic Galvanising by the Gravitel Process	308	New Agencies for Metalworking Equipment	632
C		Export Markets Grow for Air Conditioning Units	315	New Image and new Markets for Precoated Aluminium Supplier	312
Cad Cam '88	88	F		New Manufacturing Techniques in Deep-Drawing on Tri-Axis Transfer Presses	76
Cad Cam in Factory Automation	193	Fabtech International: Accent on Optics and Computers	136	New Methods of Programming Gas Cutting Machines	440
Can Making Speeds Up	248	Fineblanking Makes Precise Parts	178	North-West Area Survey	255
Cellular Exhaust Manufacture at Oxford Automotive Components	198	Flexible Manufacture of White Goods	66	O	
CNC Punch Press Survey	340	Flexible Manufacturing in Sheet Metal Working	368	One-Piece Aluminium Wheels	83
Coil Coated Steel for the Manufacture of Appliances	652	Flexible Manufacturing System (FMS) for Aircraft Components	118	Outsourcing offers promise to Sub-contractors that invest	637
Coil Coaters Seek better Cooperation	470	Flexible Welding System	358	P	
Coil Coating in the Automotive Industry	654	Flow Turning Grinding & Hydro Forming of Maraging Steel Tubes	32	Peugeot Seeks Market Leadership	536
Coil Coating Production of Lithographic Sheet	150	Formability of Temper Annealed Low C Mild Steel	280	Plastics and Metals: Choices in Packaging	251
Coil Coating—The European Scene	472	Forming Turns the Corner	574	Polyester Moulding Compounds	464
Cold Rolling Link, The	508	French Supplier to the Electrical Industries Seeks Export Markets	418	Porsche's new Car Body Factory	503
Collaboration Between Press & Toolmakers brings benefits for Deep Drawers	22	From Cobblers to Lasers—Behrens Moves With the Times	506	Post Embossing Process Wins NCCA'S Highest Design Award	474
Combined Sawing and Drilling Centre for Structural Steelworker	292	G		Pre-Anodised Aluminium Coil	148
Computer Aided Design for Sheet Metal Parts	584	German Press Industry Faces Stiff Competition	502	Precautions Against Slug Lifting in Progression Pressworking	580
Computer Aided Forming	600	H		Precision Forging Practice	183
Computer Aided Strip Winding Technology	624	High Energy Rate Forming—Considerations and Production Methods	188	Precoated Presswork Grows to Meet Demand of Appliance Manufacturers	476
Computerised Aid for Coil Slitting Reduces Scrap Levels	410			Press Brake Automation—Look Before You Leap	576
Concepts and Profitability of Just-in-Time Stamping	398			Pressbraking by Design	564
Contract Fabrications from Press Toolmaker	316			Presses Feature Modern Developments	228
Controlled Peen Forming	124			Press Operations Invests for the Future	640
Controlling Sheet Metal Forming Processes	438				
Creda uses Coil Fed Press Line for new Oven Range	460				

Press Shop Emphasis on Productivity	419	S		T	
Press Shop FMS for Small Automobile Parts	393	Selling the Concept of Prefinished Material	142	Taking One's Hat off to Bowlers	542
Prevention of Damage to Hearing From Noise at Work	404	Shearing and Slitting of Coil and Sheet	10	Technological Advances in Fabrication	290
Production of Complicated Parts by NC Forming	578	Sheet Fasteners	422	Thermoplastic Composites Carry it Off	466
Profiling Exotic Materials	126	Sheet Metalworkers Wooded in the North West	365	Transfer Presses for Motor Panels	80
Punching and Forming on Toggle Presses	636	Software for Plate and Sheet Metal Cutting	442	Transfer Press Usage Grows	82
R		Spark Erosion Applied to the Sheet Metal Industry	330	Tri-Axis Transfer Presses for the Automotive Industry	72
Reduced Set-Up and Changeover Time on Blanking Lines	236	Stadco Installs Two New Press Lines to Meet Growing Business	376	Tube Manipulation—Spinning	28
Robot-Fed Presses at Baxi-Heaters	60	Stainless Tube Production	204	U	
Robot Handling Links Presslines with Storage and Assembly Systems	364	Subcon '88	130	Universal Folding—Alternatives to Press Braking	568
Robotic Measurement Facilitates Ford's Robotic Vehicle Assembly	264	Subcontractor Adapts to Demands	257	V	
Rollforming and Lockforming	604	Superplasticity Comes Out of the Closet	634	Vitreous Enamelling of Steel	144
Rollforming Line Combines Art and Science	598	Superplastic Presses for the Aerospace Industry	230	W	
RP-A Negotiates Three Technology Transfer Deals	558	Surface Cleaning with 3-Dimensional Abrasives	260	What a Dump!	338
				What are Cold Rolled Sections?	590
				Williams Keeps it Cool	587
				Wirecut EDM Enhances Progression Tool Manufacture	40
